PERSONAL STATEMENT

A very hard-working, friendly, and polite individual, who is currently studying a BSc Computer Science at university. I am currently seeking a job in front-end web development. I take a lot of pride in my work, which motivates me to make sure that everything I do is done well. I am always eager to learn and develop new skills. My long-term career goal is to move into full-stack web development.

KEY SKILLS

- I am very hard-working
- I work well in a team
- I am always willing to learn
- I am very self-motivated
- I have a logical mindset and good problem-solving skills

EDUCATION

UNIVERSITY OF ESSEX – DEGREE – 2018 TO PRESENT

I am currently in my third year of university, studying for a bachelor's degree in Computer Science.

SEEVIC COLLEGE – A-LEVELS – 2016 TO 2018

I have A-levels in Computer Science (A), Maths (B), and Physics (C).

THE APPLETON SCHOOL – GCSES – 2011 TO 2016

I have 10 GCSEs (2 'A*'s, 5 'A's, 3 'B's) including English, Maths, Science, Computing and Business Studies.

ADDITIONAL SKILLS AND INTERESTS

I have a great interest in computing, so I enjoy developing websites and software in my spare time. I love creating solutions to problems and web development gives me a great platform to do that. I have a genuine passion for programming, so I love the creativity and challenges that come along with it. As well as creating websites, I also love writing software and designing interfaces.

PORTFOLIO WORK
